Testimonials of Self sponsored candidates

PGDM -18 Months

Pursuing the Executive PGDM (General Management) course at IMI Delhi following a work experience of more than 8 years was a great decision. The faculty is knowledgeable along with extensive experience in their respective domains and this insight guided me throughout the duration of the course. The curriculum gave me exposure to diverse fields such as Finance, Operations, HR, Data Analytics, Marketing, etc. Leveraging the exposure of the curriculum and guidance provided by the faculty from Day 1, I was able to leap to a middle management position. The Placement Office and the Team was extremely helpful and efficient in organising the Campus Recruitment drive. Individual attention to the student profile along with interview preparation ensured that I was ready to tackle the interviews head on.

Amitesh Tewari

Executive PGDM -2021-2022

I owe a large part of my knowledge and achievement to IMI Delhi. It did a great job of equipping me with the knowledge and skills required to excel in any job, particularly analysis and research. In my current job I have found that these skills have been invaluable throughout my different responsibilities at ADP. IMI Delhi not only gives to its students an armoury of skills, but also develops in them the assurance of being as good as the best anywhere.

Pulkit Bhargava

Executive PGDM -2021-2022

After serving in the Army for about ten years, I decided to hang up my boots and pursue an MBA. I chose the General Management Programme at IMI, New Delhi because it is a special programme created for individuals with more than five years of experience with the goal of preparing them with the knowledge, skills, and perspective necessary for their successful career in the corporate world. The one-year curriculum at IMI in New Delhi, which has changed throughout the years, expands on the knowledge of the participants in organisational behaviour, leadership, infrastructure management, project management, supply chain management, and human resource management. I was equipped with cutting-edge global management techniques thanks to the precisely created curriculum, which places focus on crucial subjects including corporate finance, business analytics, statistics, business law, economics, marketing, and entrepreneurship. I and the participants have been exposed to complicated real-life business issues across a wide variety of industries, organisations, and management disciplines thanks to a variety of cutting-edge learning techniques, particularly the case study pedagogy. All of us had the opportunity to experience a lively academic setting, a well-stocked library, lectures by experts in several subjects, industrial engagement, and student activities. Additionally, I received the excellent profile I was looking for during the hiring process.

Sandeep Yadav
