FM plays hare and tortoise
Steady Lowering Of Corporate Tax Rate, Swift Rise In Service Tax Rate
Phenomenal balancing act, pragmatic Budget

Bakul Deshpande
The formidable challenge before the finance minister was to strike the right balance between accelerating GDP growth, fiscal consolidation and ensuring that tax revenues kept pace with the rising costs of a social policy.

The FM had made a firm commitment to achieving a fiscal deficit target of 3.5% by 2017-18. While the budget has once again doubled down on reforms, we may have to find big bang reforms in this Budget.

Vision for consolidation, growth
Jay Narayan Vyas
Finance Minister Arun Jaitely’s maiden full Budget is pragmatic. He has clearly avoided cosmetic changes and has shown courage to say that fiscal deficit targets cannot be reworked and spread over two years.

The federal government is introducing new financial instruments to redress the deficits in the financial system and to ensure that the economy is driven to achieve high growth.
